“The Land Improvement Contractors of America (LICA) is a national association dedicated to encourage high standards of workmanship in resource management, land improvement practices and to promote enterprises in the area of land improvement contracting. Men and women with determination, commitment, skills and ability to adapt to the constantly changing business environment built LICA’s solid foundation.” And for over 60 years, Illinois LICA has been running strong, bringing people with these similar interests and passions for improving our natural resources together. Our contractors, throughout the state, are educated and committed to the professional conservation of our soil & water resources. Comprised of over 200 contractor members, ILICA continues to grow membership in an era of decline, proving the association serves a viable role in the land improvement industry.

While contractor membership is the foundation of ILICA, the association has much to owe its continued growth and expansion to our associate members. Associate members are those persons or companies that manufacture or sell materials, equipment, and/or services to ILICA active contractor membership. It is the associate members whom assist in providing the needed education and sponsorship vital to the success of ILICA education workshops, state convention, golf outings, membership drives, etc. Without their support and appeal to contractors, contractors would be burdened with extensive product & service research for their company, higher registration costs for education events, and fewer industry networking opportunities.

As a growing association, ILICA focuses on building quality membership of both our contractor and associate memberships annually. If your clientele includes land improvement contractors involved with excavation, earthmoving, landscaping, drainage, on-site waste treatment, paving, reclamation, trucking, etc., I encourage you to consider becoming an associate member of the Illinois Land Improvement Contractors Association. ILICA is an expanding, not-for-profit association with over 200 members strong. Associate members not only get the opportunity to support many great education programs and events through sponsorship, but they also get the combined returns of advertising, coupled with an exclusive ILICA benefits package and the membership access/networking that comes with it. ILICA associate membership benefits package includes:

- ILICA Newsletters
- ILICA Directory and Website company listing
- Notices of meetings, workshops and information regarding upcoming events
- ILICA Member privileges & discounts
- Access to ILICA contractor members and listings
- Exclusive publication advertising opportunities
- Annual convention sponsorship and exhibiting opportunities

We hope you realize the benefits and partnership that ILICA can bring to your company, and we would be excited to list you an associate member in our Directory! Please do not hesitate to contact the office for more details about membership at 309-932-1230.

Sincerely,

Ryan J. Arch
Executive Director
